A DIVISION OF ST. JOSEPH HEALTH SERVICES OF RHODE ISLAND

An affiliate of CharterCARE Health Partners

Exceptional care.

*Just what you need
following surgery.*

The Care One Experience

The personalized care you receive following surgery can significantly improve your recovery time, outcomes, and outlook.

The Care One unit at Fatima Hospital was specifically designed -- both in physical layout and the philosophy and training of our staff -- to provide the best experience for people following surgery.

Care One is built on a foundation of quality, communication, respect, and patient choice. The team on Care One is committed to meeting the individual needs of each patient, while encouraging the valuable partnership that exists between the care team, the patient, and their family.

Reflecting this commitment to quality is the "gold seal" certification of Fatima Hospital for hip and knee surgery... a designation by The Joint Commission, the national organization that accredits and certifies hospitals and health providers across the nation. And we are the first program in Rhode Island to receive this special recognition.

Care One includes 14 larger private rooms where our team provides optimal care for patients following orthopedic and other types of surgery. The larger rooms provide increased comfort for patients and visitors, while allowing doctors, nurses, and support services like rehabilitation, better access to people following surgery. All of this adds up to a better patient experience.

A majority of our staff has achieved national certification in orthopedic nursing and the entire team has been specially trained to provide individualized care focused on the preferences, values and needs of patients and their loved ones. We also offer alternative therapies utilizing massage and music to enhance care and the overall post-surgical experience.

Thank you for choosing to have your surgery at Fatima Hospital. If you should need anything during your stay, do not hesitate to ask any member of our staff.

For Visitors

On Care One, our staff wants you to feel welcome. Family and visitors are allowed to stay overnight and visiting hours are unrestricted. We ask, however, that you use good judgement so your loved one has adequate time to rest and recover. We also have a kitchen area and library on Care One for your use.

If you need to reach a nurse at any time, you can call 456-3233. To reach the nurse manager of Care One, Paula DiLeonardo, RN, please call 456-3168.
